December 2023

This half term in Square Tower Class

The focus for our half term has been on building relationships within the class and learning about positive and safe relationships, including those online. We have enjoyed working together on craft activities, team building and creating culinary delights for ourselves and for the Christmas market. Thank you to all those families who were able to join us on that afternoon, it was a roaring success and as a school we raised over £1000 with some of this going to charity. The pupils have had a fantastic half term and should be really proud of the way they have shown kindness to one another and come together as a class. They were able to celebrate their achievements and enjoy time together on their first school trip to Flip Out! Square Tower would like to wish all of our families a very merry Christmas and a happy and healthy 2024.

New member of the Square Tower team

Ellie joined Square Tower in December. Ellie is really creative . Ellie has enjoyed getting to know the class and is looking forward to getting stuck into our exciting projects for the Spring term.

Please feel free to share anything that pupils have enjoyed doing over Christmas to ks2@thewymeringschool.com. It's great to see what pupils have been up to and help them to build a connection between home and school.
