Spring 1 2025

This half term in Square Tower Class

Our Big Questions - Are humans improving the world? How can I make the world a better place?

This term, we're diving into the fascinating world of Amazing Islands! We'll discover how our planet has come to be, covering volcanic activity, tectonic plates, and erosion. We'll also tackle rising sea levels, extreme weather, and pollution, while exploring ways to support our planet through waste reduction and renewable energy.

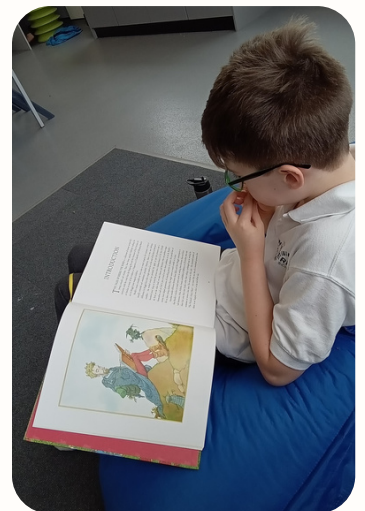

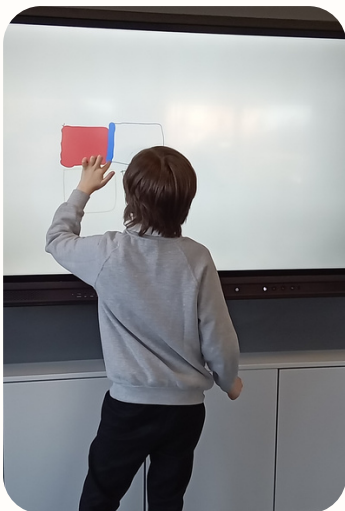

We are also engaging well with reading 'Fing' by David Walliams as a class. We sit together as a group daily and love how bonkers the story is!

Messy Play

Square Tower have been enjoying lots of sensory play recently including play doh, slime and shaving foam!

As part of our stunning start some of us calculated our carbon footprint. It's really easy to do and eye opening too! Visit <https://footprint.wwf.org.uk/> if you would like to calculate yours too!
